

date::from\_stream

date::detail::low\_level\_fmt

date::year\_month::year

```
graph LR; A[date::from_stream] --> C[date::year_month::year]; B[date::detail::low_level_fmt] --> C;
```

The diagram illustrates a dependency or relationship between three functions. On the left, two white rectangular boxes with black borders contain the text 'date::from\_stream' (top) and 'date::detail::low\_level\_fmt' (bottom). On the right, a gray rectangular box with a black border contains the text 'date::year\_month::year'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'date::from\_stream' and 'date::detail::low\_level\_fmt' are inputs or dependencies for 'date::year\_month::year'.
